

The background is a dark blue field filled with numerous overlapping, semi-transparent, geometric shapes. These shapes, which resemble facets of crystals or shards of glass, are rendered in various shades of blue, from deep navy to bright cyan. They are arranged in a way that creates a sense of depth and movement, as if they are floating or falling from the top right towards the bottom left. The overall effect is a complex, crystalline structure that catches the light, giving it a shimmering, digital quality.

DVD

and beyond

2013/14
