

Rovi powers an end to end entertainment experience

Rovi powers the entertainment delivery process from content creation through to distribution - and delivers your digital media directly to consumers when they want it, across multiple platforms and devices.

Whether you are a replicator, authoring house, retailer or content owner, Rovi has a technology solution designed to help your digital entertainment business grow. From content production tools, content protection and over-the-top storefront solutions, we can help consumers discover, purchase, manage and enjoy entertainment.
